

This is my itenary for the first week

Shopping

- Wheat Bread
- 2 percent milk
- Blueberry yogurt
- Dishwashing capsules
- Chicken
- Red Grapes
- Sweet Peas
- Idaho potatoes

Classes

1. Database Foundations
2. Programming I
3. Networking I
4. English Comp I
5. Calculus I

This is just a first taste of success that only uses the minimal tags
I will get started early on the next assignment since it will be much more difficult
This is the address that i will use here

*MyName here
br555 east run st.
Rural, AR 77777*

You will need to type in the information as it is and save it as "**web_one.htm**". The tags that are used are the template, two types of lists, img, p, br, hr, address, bold, italic, h1, blockquote and any others you think you might need for spacing. Use the image file that was attached to this assignment called "smile.jpg. There are only two attributes (not styles) that you will need and that is the background color on the body and an alt on the image saying "smiley face". There is not any CSS involved in this so the only file I will need is the .htm file. I do not need the image file.

Good Luck!
